RE:

Request for Board Concurrence on Form and Amount of Surety, for the Transfer of Atlas Minerals' Mines to Energy Fuels, Far West, M/037/019 and Patti Ann, M/037/003, San Juan

County, Utah

Energy Fuels Nuclear, Inc. has arranged with Atlas Minerals to assume four sites: the Far West, the Patti Ann, the Standard II, and the Ivy. All four sites are currently covered by a Board Contract with Atlas. Only two sites are over 5 acres, the Far West, and the Patti Ann, and therefore require bonding.

Energy Fuels has submitted the attached bonding and permit transfer information for Division approval. The bond amounts are based on estimates (attached) developed by Frank Filas. The bond estimates are less than the original Atlas figures because of a reduction in actual disturbed acreage. The original permit for the Far West indicated that 23 acres of disturbance would occur. Only 15 acres have actually been disturbed. The Patti Ann's disturbed acreage has been reduced from 10 to 9.4.

We have waived the requirement for a Reclamation Agreement (Form MR-RA) required under item #4 of the permit transfer form. These forms are not yet ready for use.

#### Far West, M/037/019

#### Description:

This mine used to be Atlas' Big Indian headquarters. The site now consists of approximately a dozen large butler buildings on a 15 acre pad area. An asphalt road accesses the site and will have to be reclaimed unless the BLM desires to keep it. One decline is also present on site. Atlas has completed a good deal of clean-up and salvage on this site.
